STORE DESIGNER - CHELTENHAM

WHO WE ARE

Superdry have been making world-class product for over 20 years, and we're proud of it. Our mission is to inspire and engage the contemporary style-obsessed consumer, whilst leaving a positive environmental legacy.

Together, we have built a brand that has cut through the global apparel market at record speed, taking market share from brands that have existed for decades. But we have a big opportunity ahead of us as we launch 4 new collections.

We are now on an exciting journey to reset our brand and return to our design-led roots and we are looking for talented people to join us on our journey.

THE ROLE:

We're looking for a creative, passionate and technically minded Store Designer to join our Store Development team at Superdry.

This is an exciting opportunity for someone with a genuine passion for design, a keen eye for detail and the technical skills to bring ideas to life. You'll help transform creative store concepts into inspiring, functional and buildable retail environments across the UK and internationally.

Working with Revit and AutoCAD, you'll be involved in every stage of the design process, from site surveys and space planning to developing store layouts, construction drawings and technical details. You'll have the opportunity to combine your creativity with practical problem-solving, ensuring our stores not only look great but work brilliantly too.

You'll work alongside our experienced Store Development team, contributing fresh ideas and helping deliver new stores, refurbishments and improvements to existing retail spaces.

You don't need previous retail design experience to apply. If you have a background in architecture, architectural technology, commercial interiors or fit-out design, and a passion for creating engaging spaces, we'd love to hear from you.

YOU WILL:

- Carry out site surveys within the UK, taking measurements, photographs and recording existing conditions.
- Review site information, identify discrepancies and develop Revit models.

Superdry & Co

AUTHENTIC PREMIUM OUTFITTERS

- Produce store layouts, general arrangement drawings, setting-out plans and demolition drawings.
- Develop fixture plans, flooring layouts, wall finishes, reflected ceiling plans and internal elevations.
- Prepare shopfront, signage, lighting and power/data drawings.
- Produce fire-strategy plans ensuring compliance of building regulations.
- Produce detailed technical drawing packages for construction.
- Prepare Designer's Risk Assessments, Design and Access Statements and Scope of Works documents.
- Lead landlord approval submissions, planning-related applications and Building Control documentation.
- Work closely with internal teams, external consultants, contractors and suppliers.
- Review technical information, coordinate design changes and resolve drawing queries.
- Carry out quality checks and prepare PDF and DWG drawing packages for issue.
- Help ensure projects are delivered accurately and to agreed deadlines.

YOU ARE:

We're looking for someone who combines creativity and a genuine passion for design with strong technical skills and an eye for detail. You'll enjoy turning ideas into practical design solutions, working collaboratively and developing your knowledge and experience along the way.

Essential

- Experience in architectural, technical or interior design, ideally within commercial environments.
- Experience working in 2D and 3D software formats
- Knowledge of UK Building Regulations.
- Experience with landlord approvals and Building Control submissions and planning-related applications
- Good organisational skills and the ability to manage multiple priorities.
- A proactive, collaborative approach to problem-solving.

Desirable

- Experience in retail, hospitality or commercial fit-out.
- Experience of Revit.
- Familiarity with Adobe Photoshop.

You don't need to have experience in every area listed. We're interested in your technical ability, your approach to problem-solving and your potential to develop.

WORKING FOR SUPERDRY HAS NEVER BEEN SO REWARDING….

- You'll have the opportunity to work on real retail development projects, develop your technical design skills and see your work come to life in stores.
- We offer a hybrid working arrangement with three days in our Cheltenham office
