Superdry®Careers

Garment Technologist (Multi-Product) – Cheltenham

Superdry is a genuine British success story that has grown to an annual turnover of £872m, with our brand already worth £1.6bn in total global consumer sales. We are a multichannel operator with well-developed and highly successful retail, ecommerce, wholesale and franchise businesses and customers in virtually every country in the world. We are well on our way to achieving our goal of becoming a global digital brand.

The Role

We're looking for a highly experienced, driven Multi Product Garment Technologist to deliver products with premium quality and great fit, meeting design intent and Critical Path timelines

You will

- Develop product to a high standard, working with with a team of talented technologists, working across categories, mentoring and coaching to deliver great performance
- Actively take ownership of approvals to deliver best quality from SMS through to delivery
- Create relevant technical information and manuals, developing the data through close collaboration to deliver quality and consistency
- Support Regional Offices and Suppliers to create right-first-time PP samples, and engage key stakeholders to achieve targets set by the Head of Department
- Work with the Fabric Team on base, bulk and compliance testing
- Work on a PLM system
- Have strong fit skills and able to fit new styles independently, seeking design direction on silhouette
- Risk assess product quality and present clear and comprehensive picture of issues and its consequences, enabling a timely resolution
- Engage others to learn through sharing your knowledge of garment finish, fit and production processes
- Drive the approval process in line with departmental SLAs and enable delivery dates in line with critical path requirements
- Collaborate with the Fabric Team to achieve agreement on colour standards, fabric bases and blocks, ensuring colour and fabric tolerances are agreed early in the process by all stakeholders

You are

- Graduated in a relevant degree and you have 3 years garment technical experience
- Experienced in managing suppliers
- Able to demonstrate customer focus and project management skills
- IT literate specifically in Excel and Outlook
- Able to negotiate with your suppliers
- Able to commit to international travel as required
- An effective communicator
- A great organiser and able to plan
- Able to build strong relationships, influencing, communicating and engaging with colleagues and suppliers
- Knowledgeable and have strong skills for product construction, fabric processing and performance, print & embellishment techniques, washes, stitch types, production processes & the development of great fit across multiple product types
- Able to offer practical solutions and advice when issues arise
